Procurement at Wannon Water

Wannon Water completes all purchasing and tendering in a transparent and ethical manner, and obtains goods and services of high quality and at the best value available.

Introduction

Our Procurement Policy provides internal buyers with clear guidance relating to how procurement is undertaken at Wannon Water.

This includes the financial threshold requirements and the procurement processes themselves.

Our commitment

We are committed to ensuring the procurement process is transparent and ethical, and results in the procurement of goods and services that provide the highest quality and value for money.

Themes

Procurement includes capital works, operations and maintenance, as well as services.

Market approach documents require vendor information for their safety, environmental and quality management systems.

Initiatives

- Local Impact Statements.
- Direct Social Outcomes - Social Procurement Process.
- Indirect Social Outcomes - Supplier Code of Conduct.
